Healthy School Environment

**Protect Young People from E-Cigarettes Initiative**

The Centers for Disease Control and Prevention (CDC) Office on Smoking and Health (OSH) is launching a national communication initiative called Protect Young People from E-Cigarettes. The initiative aims to educate staff working in school settings about the risks of youth using e-cigarettes. [Learn more about the initiative.](#)

**Virtual Education Linked with Decreased Physical Activity**

The American Academy of Pediatrics (AAP) released a new study that found that virtual education during the pandemic is linked with decreased physical activity and a decrease in emotional health for children and parents. The study shows how decrease in physical activity can affect students and how parents have struggled juggling work and school at home. [Access the AAP article.](#)

Community Involvement

**NACCHO Launches New Toolkit to Guide Healthy People 2030**

The National Association of County and City Health Officials (NACCHO) has released a new tool that will provide guidance in using the Healthy People 2030 objectives and targets at the local level in a community health improvement process. The toolkit will provide a framework for facilitating strategic alignment between partners to achieve shared goals. [Learn more and access the new toolkit.](#)

**2021 Community Matters Report**

This year's report presents a summary of an extraordinary year of challenges for Communities In Schools and for public education in America. It emphasizes the need to ensure successful reengagement of all students and build a more equitable system of learning that will exist well beyond the initial return from the pandemic. [Read more HERE.](#)

School Health Services

**Free Guides for Young Adults with Diabetes**

Do you have a teen with diabetes about to graduate and go to college? The College Diabetes Network (CDN) has information for students and families as they start the transition to college and life after. These guides provide information on how to navigate through the transition to college, work, and to full independence. The guides are available in English and Spanish. [Request your free guides today.](#)

Nutrition Services

**Breakfast is a great way to start the day!**

School breakfast provides essential nutrients including iron, calcium and Vitamins B and C that support growth and development. Children who are breakfast eaters perform better on tests, have improved memory, and focus, and are less likely to be absent or tardy. Virtual and in-person learners have access to a nutrient dense school breakfast 5 days a week. As reminder, the [USDA has issued an extension of no cost meals for all students through June 30, 2022.](#)

**Be ‘berry’ smart!**

Blueberries are colorful nutrient powerhouses and a student favorite! With spring in full swing, you can find blueberries featured in school meals throughout Georgia. Encouraging students to select a variety of colors is one way to ensure they get plenty of nutrients and start their day ready to learn. Try some Harvest of the Month featured blueberries at home and as part of your school meal.

COVID-19 Resources

**New CDC Guidance on COVID-19 Vaccine Side Effects**

The CDC has released new guidance on possible side effects for the COVID-19 vaccine and when you have been fully vaccinated. The CDC has resources for school nurses to use in schools about the vaccine and what to expect when getting vaccinated. [Read CDC’s information about possible side effects and helpful tips.](#)

**Considerations for Return to School Post COVID-19 for Students with Disabilities and Special Healthcare Needs**

As schools are slowly opening their doors to students, school nurses need to be planning on what they are going to do to keep all students safe, including students with disabilities and special healthcare needs. NASN has released information on resources [For more information, view the publication.](#)
Employee Wellness

Learn About Emotional Wellness
Are you interested in learning about emotional wellness? Emotional wellness is the ability to handle life's stresses successfully and to adapt to changing and difficult situations. The National Institutes of Health (NIH) has an Emotional Wellness Toolkit with tips and strategies to help with life's daily stressors.

Fueling Georgia’s Future

May Harvest of the Month

BLUEBERRIES

Georgia Grown Resources

Classroom Resources: Resources include downloadable activity books, bulletin board kits, commodity fun facts, Georgia Grown videos and more, from Georgia Grown.

Funding Opportunities

Get a Salad Bar in Your School
Does your school have a salad bar? If not, apply for a grant from Salad Bars to Schools. Applications are accepted year-round and are reviewed in the order they are received. It may take up to 12-14 months to fund a school salad bar. To qualify, the salad bar must be part of the reimbursable meal served in your district.

Target Field Trip Grants
Since 2007, the Target Company has donated more than $16 million in grants to the improvement of education. Each Target store in the United States will award three Target Field Trip Grants, enabling one in 25 schools throughout the country to send a classroom on a field trip.

Firehouse Subs Public Safety Foundation AED Grants
- Portal reopens January 1, 2021

Click here to learn more.

Apply for a Grant to Improve Your Community
If you have a plan for helping your community but need some money to get started, Walmart may be able to help. Walmart's Local Community Grant Program awards grants to eligible kindergarten-through-12th grade public, private or charter schools. Proposed projects could be a soup kitchen, food pantry, clothing closet or other activities that benefit the community at large. The deadline to apply is December 31, 2021. Visit the Local Community Grant Program for a complete list of eligibility requirements and areas of funding.

NASN Research Grants
Purpose: To encourage and support research regarding school nursing and health of school aged children.

To advance and fund quality school nursing practice and school-affiliated delivery of healthcare.

Program Donates Equipment & Apparel for Sports
Does your school need help getting sports equipment and apparel? If it does, apply for a donation from Good Sports. The application process will open in January. If selected, your school will gain access to the Good Sports catalog for available inventory. Schools must serve young people between ages 3-18 years old. More than half of the student body must be eligible for free or reduced lunches.
Children’s Healthcare of Atlanta – School Health Program

CHOA’s School Health Program offers school nurse updates and webinars on clinical pediatric topics; staff education for school districts in metro Atlanta; reviews and revisions of the school health manual; serves as a contact for school nurses to call to discuss programmatic needs and difficult cases; and provides the CHOA/DPH Common Infectious Illness poster, Behavioral Health resources, and Educational Videos. CHOA also provides nutritional and wellness resources through the Strong 4 Life Program.

For questions or requests, call 404-785-7202, or email schoolhealth@choa.org.
